# THINK ABOUT THIS...

Did you ever want to break all the typical norms inflicted by the society and do something with your life that is meaningful to you?

Did you ever feel that the pressure of deadlines is weighing you down so much that you just can't seem to keep up?

Are you tired of being compared to others' success?

Are you living in stress for a big portion of your day worrying about future and expectations you have to fulfill?

Are you in an emotionally satisfying place in your life where you can truly enjoy and make the most of what you're doing?

Do you feel mood swings at a personal level and find it difficult to focus on one project?

Do you feel that as an entrepreneur you can do much more than what you are doing?
