

# Shield of Protection

## Anytime. Anywhere.

From our WiFi routers, laptops to Smart TVs, our daily lives revolve around using wireless communication technology. Add the radiations from nearby mobile towers and the high tension wire lines or even the servers

in our offices; we are constantly exposed to Electro Magnetic Fields (EMFs). EMFs emitted by various sources at the same time & at a given place form Electrosmog.

### Did you know?

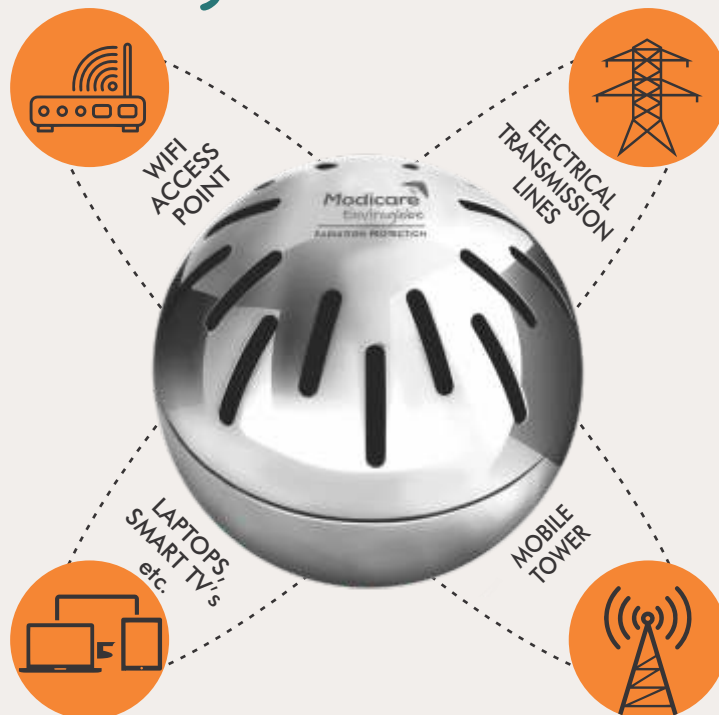

EMFs can affect your body’s nervous system function and cause damage to cells.

#### Short Term and Long Term Effects

## Advantages of Modicare EnviroGlobe

- We are surrounded by Electrosmog 24x7, which increases stress levels and affects health. EnviroGlobe protects us from this harmful Electrosmog
- When placed in any household or office area, it neutralizes the harmful impact of Electromagnetic Radiation emitted from all the wi-fi devices, boosters, Mobile Towers etc. around it
- EnviroGlobe helps to protect an area of approx. 300-350 sq. ft. from the ill-effects of electromagnetic radiations. It changes the harmful nature of radiation without altering the signal strength and quality
- Helps in reducing the stress in the human body caused due to exposure to EMFs and Electrosmog over a period of time

### Testing & certifications :

Tested on more than 1000 people and it has been proved that after having EnviroGlobe installed, pulse rate reduced by 4-7 percent in those who have a high pulse rate ( $> 82$ ). Lower pulse rate indicates lower stress and better health.
