

TRY A HAND-STRENGTH TEST TO SEE MODICARE ENVIROCHIP WORK

1

Lift your hands, clench your fists, and ask a friend to push down one of your hands while you resist. This hand will not go down easily.

2

Now hold your mobile phone (switched on) and ask your friend to push this hand down with the same force while you resist. Your hand will probably go down easily.

3

Now attach Modicare Envirochip to your mobile phone and repeat the exercise given above. You will notice that you are able to resist as in the first scenario.

DID YOU KNOW

Electromagnetic Fields (EMFs) radiation in your home may cause sleeplessness or restlessness at night. Your phone emits more EMFs when the signal strength is poor.

Cell Phone manuals ask you to:

- Keep the device away from your body;
- Text more than talk;
- Recommend that talk time not exceed 6 min./hour.

Cell phones draw more power, and emit more radiation, in enclosed metal spaces like elevators, cars, trains, and planes.

MODICARE ENVIROCHIP OFFERS MULTIPLE BENEFITS

Neutralises the harmful effects of Electromagnetic Fields (EMFs) emanating from electronic devices.

Tested and certified at reputed labs and institutions for its effectiveness and usability.

CE certified.

Reduces stress in the human body & thus prevents diminished immunity.

Patented technology uses inert materials.

Clinical trials conducted on Envirochip prove its efficacy in decreasing pulse rate and improving health.

Continues to work as long as it is attached to a device emitting EMFs.

MODICARE ENVIROCHIP WELL RESEARCHED, TESTED, CERTIFIED
